B Sabadell

Centene is a leading company in the American health sector, included in the Fortune 25 list. It has more than 30 years of experience collaborating with state governments in the United States, being one of the main providers of the Medicare and Medicaid programs.

Banco Sabadell is the fourth biggest commercial bank in Spain. The company has offices in every region in the country and is present in 16 other countries.

The University Hospitals of Torrevieja and Vinalopó, the San Luis y Crevillent health centers; as well as Ribera Povisa Hospital, have the Joint Commission International quality seal. Furthermore, Ribera is among the top 50 best companies to work for in Spain, according to the consultancy center Great Place to Work.

Our values

TRANSFORMATION

We transform healthcare with our management to obtain the best results in quality and efficiency, creating synergies between public and private, to guarantee the sustainability of the system with preventative, predictive, participatory, personalized and population-based medicine.

We innovate the people management model with an attractive and fair project that incentivizes a job well done.

ETHICS AND CARE

We are health workers

Our mission is to dedicate ourselves to and care for others. We act with honesty and transparency so that the patient feels safe. We believe in doing things well, always doing so with scientific proof.

We take care of people

People and their health are a priority for us. We are passionate about being by their side, taking care of and accompanying patients and their families. And we want to do that throughout every stage of their lives.

COMMITMENT

We work today for the healthcare of tomorrow

We are committed to society, so that the population have access to excellent and sustainable healthcare over time. We are committed to our professionals. We train them and take care of their well-being. We want them to feel happy, committed to our responsible health model and, therefore, to the patients.

Care model focused on the citizen

- The latest diagnostic and therapeutic technology
- High levels of patient satisfaction and trust
- Treatment that is close and personalized
- Facilities that guarantee greater privacy and comfort
- Easy access to care
- Faster response times
- Free choice of hospitals and professionals
- Technological tools available for citizens

The keys to our responsible management

CLINICAL MANAGEMENT

- Our prevention policy and health promotion aim to ensure the best health conditions of the public.
- Experience in integration models: hospital, primary and socio-health care.
- Predictive population management models.
- Implementation of the "5Cs": do the correct thing, in the correct place, at the correct time for the correct person and cost.

PEOPLE MANAGEMENT

- Work-life balance of our professionals
- High specialization of teams through training plans.
- Policies to attract talent and promote.
- International recognition in project development.
- Flexible remuneration plans.
- High level of satisfaction among professionals.

INFORMATION AND COMMUNICATION TECHNOLOGIES

- Interoperability of data and process automation.
- Telemedicine and new digital services for a new "liquid hospital" concept.
- Artificial intelligence in order to facilitate clinical decision making and care processes.
